Karlsruhe/Germany, 2023-11-22

## **Change of management at the Romaco facility in Karlsruhe Boris Bachmeier appointed new Managing Director of Romaco Pharmatechnik GmbH**

**Boris Bachmeier has been appointed new Managing Director of Romaco Pharmatechnik GmbH in Karlsruhe. He succeeds Markus Regner, who will be leaving the company at his own request at the end of November.**

Boris Bachmeier has just been named by Romaco Holding GmbH as the new Managing Director of the Romaco Pharmatechnik business unit in Karlsruhe (Germany). He will take over from Markus Regner, who has managed the company very successfully since 2018 and will be leaving at his own request at the end of November. All blister, heat sealing and rigid tube filling machines traded under the brand names Noack and Siebler are manufactured at the Romaco facility in Karlsruhe.

“I’m delighted to welcome Boris Bachmeier as new Managing Director of Romaco Pharmatechnik”, explained Jörg Pieper, CEO of the Romaco Group. “With his first-rate qualifications and extensive top-level experience, he will be a huge boost for our group’s management. I was particularly impressed by his clearly structured, integrative style of leadership, which will make a vital contribution to Romaco’s success.”

After training as an officer in the German air force and studying economics and management in Munich, Bachmeier proceeded directly to hold various management positions with human resources responsibility. He subsequently did a part-time MBA (Master of Business Administration International Management) before switching to industry in 2010. His career also includes managing director roles in the engineering and automotive sectors. At the time of moving to Romaco, 44-year-old Boris Bachmeier can already look back on more than two decades of management experience.

“Romaco is a typical hidden champion among European machine and equipment manufacturers. First and foremost, I see the enormous potential for developing the product lines united under the umbrella brand Romaco”, Bachmeier emphasized. “I’m confident that we can progressively expand Romaco’s position in the market with a blend of excellence in production and premium quality. All of our business activities will be strictly aligned to our customers’ needs.”

### **Romaco Group**

Romaco is a leading international supplier of processing and packaging equipment specializing in engineering technologies for pharmaceutical products. The Group provides individual machines, lines and turnkey solutions for manufacturing, filling and packing powders, granulates, pellets, tablets, capsules, syringes, liquids and medical devices. The company also serves the food and chemical industries. Through its various technologies, Romaco is committed to sustainable production and to systematically reducing CO<sub>2</sub> emissions.

The Romaco Group has its headquarters in Karlsruhe (Germany) and is part of the Truking Group, a globally operating high-tech enterprise based in Changsha (China). Truking’s core competency is handling and filling pharmaceutical liquids.

Romaco operates from five European business sites, with a broad portfolio comprised of seven established product brands. Noack and Siebler (Karlsruhe, Germany) supply blister, heat-sealing and rigid tube filling machines. Macofar (Bologna, Italy) markets technologies for filling sterile and non-sterile powders and liquids. Promatic (also Bologna, Italy) specializes in cartoners, track & trace systems and case packers. Kilian (Cologne, Germany) is a leading manufacturer of tablet presses. Innojet (Steinen, Germany) is in the business of granulating and coating fine solid particles. Tecpharm (Barcelona, Spain) offers tablet coating technologies.

More than 850 highly skilled and committed Romaco employees are dedicated to the development of future product technologies and to the continuous implementation of internal improvement processes. The Romaco Group’s multi-brand system solutions are sold worldwide through nine Sales & Service Centers

and a dense network of local agent organizations. Over 12,000 installations delivered by Romaco are currently in use in more than 180 different countries.
