

Press Release

Karlsruhe/Germany, 12/09/2018

New Managing Director of Romaco Pharmatechnik GmbH

Markus Regner takes over at the Karlsruhe facility

Markus Regner has been appointed new Managing Director of the Karlsruhe (Germany) based Romaco Pharmatechnik GmbH. Together with Romaco CFO/COO Carsten Strenger, he is responsible for the running of the facility where Romaco's Noack and Siebler brands are manufactured.

The Romaco Group has just appointed Markus Regner (51) as new Managing Director of Romaco Pharmatechnik GmbH, the facility where Romaco's Noack and Siebler brands are manufactured in Karlsruhe (Germany). Amongst other things, Mr. Regner will be responsible for sales, customer service, operations and engineering. He will work alongside Carsten Strenger, who will remain CFO/COO of Romaco Holding GmbH as well as joint Managing Director of Romaco Pharmatechnik GmbH.

"Markus Regner is a true all-rounder with an inside knowledge of the industry", emphasised Jörg Pieper, CEO Romaco Group. "We're delighted that he has agreed to join the Romaco management. He has an impressive biography and is thoroughly familiar with the complex executive functions of a mid-market company – a leader who is very much in touch with the grass roots."

All-rounder with leadership qualities

A graduate in Aerospace Engineering, Markus Regner began his career in the solar technology sector in the mid-nineties. He switched to the pharmaceutical packaging industry, which has remained his professional home to this day, at the turn of the millennium. He has held various executive positions with pharmaceutical technology groups over the past 20 years, most recently as Technical Manager at a supplier of customised machines for filling liquids.

When asked about his reasons for moving to Romaco Pharmatechnik GmbH, Markus Regner replied as follows: "I believe Romaco has everything it takes to be very successful. Noack and Siebler have a particularly strong brand essence with a lot of potential still waiting to be tapped. My aim is to systematically strengthen this

innovation capability and drive those technologies forward. It's an exciting challenge and I'm looking forward to it immensely."

Romaco Group

Romaco is a leading international supplier of processing and packaging equipment specialising in engineering technologies for pharmaceutical solids. The group provides individual machines and turnkey solutions for manufacturing and packing powders, granulates, pellets, tablets, capsules, syringes and medical devices. Romaco also serves the food and chemical industries.

The Romaco Group has its headquarters in Karlsruhe (Germany) and is part of the Truking Group, a globally operating high-tech enterprise based in Changsha (China). Truking's core competency is handling and filling pharmaceutical liquids.

Romaco operates from four European business sites, with a broad portfolio comprised of six established product brands. Noack and Siebler (Karlsruhe, Germany) supply blister, heat-sealing and rigid tube filling machines. Macofar (Bologna, Italy) markets technologies for filling sterile and non-sterile powders and liquids. Promatic (also Bologna, Italy) specializes in cartoners, track & trace systems and case packers. Kilian (Cologne, Germany) offers compression solutions for tableting while Innojet (Steinen, Germany) is an innovation leader for granulation and coating.

More than 600 highly skilled and committed Romaco employees are dedicated to the development of future product technologies and to the continuous implementation of internal improvement processes. Romaco's multi-brand system solutions are sold worldwide through six Sales & Service Centres and a dense network of local agent organisations. Over 12,000 installations delivered by Romaco are currently in use in more than 180 different countries.
